

Carol Danvers

Machine Learning & AI Engineer

carol.danvers@example.com | (555) 345-6789 | Boston, MA | carol-ai.io

PROFESSIONAL SUMMARY

Machine Learning Engineer with 3.5 years of experience developing deep learning models, NLP pipelines, and Python microservices. Strong foundation in PyTorch, Scikit-learn, and data engineering.

TECHNICAL & CORE SKILLS

Python, PyTorch, TensorFlow, Scikit-learn, Pandas, NumPy, FastAPI, Docker, NLP, LLMs, PostgreSQL, Git, Linux

WORK EXPERIENCE

Machine Learning Engineer - Cognitive Analytics | 2021 - Present (3.0 years)

- Developed and deployed transformer-based NLP models for automated document classification.
- Built FastAPI model inference microservice wrapped in Docker containers on GPU instances.

Data Science Associate - Insight Dynamics | 2020 - 2021 (1.0 year)

- Created automated feature engineering pipelines and statistical reporting using Pandas and NumPy.

EDUCATION

Master of Science in Artificial Intelligence - Massachusetts Institute of Technology (2020)

Bachelor of Science in Mathematics - Boston University (2018)

CERTIFICATIONS

TensorFlow Developer Certificate

KEY PROJECTS

Neural Search Engine: Vector semantic search engine powered by FAISS and PyTorch embeddings.
